Projects

SimpleCart | *Responsive Web Design* **Jan 2026 - Mar 2026**

- Developed a **responsive React-based e-commerce frontend** featuring category-wise product listings (Men, Women, Kids) with reusable and dynamic UI components. Implemented shopping cart functionality, allowing users to add products and view/manage their cart seamless
- Designed and integrated multiple pages (Contact, FAQ, etc.) using React Router, showcasing efficient routing, component-based architecture, and form handling.
- Enhanced user experience with state management and optimized component rendering, ensuring smooth navigation and performance.
- Github Repository Link: https://github.com/Lpuayush/Simple-Website

Fitness App | *MERN Stack, Responsive Web Design* **Jan 2026 - Feb 2026**

- Designed and developed a full-stack fitness application using React 18, Material-UI, and RapidAPI, enabling users to explore 500+ exercises with advanced search and body-part-based filtering.
- Integrated real-time APIs (Exercise DB & YouTube) to fetch exercise data and tutorial videos, enhancing user engagement with dynamic and interactive content.
- Implemented advanced UI features such as horizontal scrolling, dynamic routing, and reusable components to deliver a smooth and intuitive user experience.
- Built a responsive, mobile-first interface using Material-UI and Emotion (CSS-in-JS), ensuring cross-device compatibility and modern UI/UX design.
- Maintained high code quality standards using ESLint and optimized component performance for better scalability and maintainability.
- Github Repository Link: https://github.com/Lpuayush/fitness-app

Training

Basics of DSA in C++ | Certificate | GitHub **June 2025 - July 2025**
Cipher Schools.

- Completed a structured DSA course in C++, covering 100+ core algorithms and data structures.
- Gained hands-on experience with arrays, linked lists, stacks, queues, recursion, and sorting techniques. Strengthened programming skills by applying Java-based DSA concepts and problem-solving techniques.
- Strengthened problem-solving skills by solving 100+ coding problems on platforms like LeetCode, CodeStudio, and HackerRank.

Certifications

DSA in CPP **July 2025**
Geeks For Geeks — Certificate Link

Privacy and Security in Online Social Media **May 2025**
Swayam NPTEL — Certificate Link

Technical Skills

Languages: C++, C, Java, JavaScript, Python

Technologies/Frameworks: React JS, Node JS, Express JS, PHP

Tools/Platforms: Git, GitHub, XAMPP, Vercel

Skills: Data Structures and Algorithms, Problem-Solving, Responsive Web Design

Education

Lovely Professional University Punjab **2023 – 2027**
Computer Science and Engineering — CGPA: 7.2 *Jalandhar, Punjab*

Kendriya Vidyalaya **2021 – 2023**
12th with Science — Percentage: 63% *patna, Bihar*

Kendriya Vidyalaya **2020 – 2021**
10th with Science — Percentage: 79.6 *patna, Bihar*
